Regional Medical Laboratory	344	Abbott amp kits, prep kits, pipette tips. Diasorin amp kits.	We are currently limited by staffing as we transition COVID 19 testing to a 24/7 operation. This is currently being addressed, and additional staff have begun training for processing and testing of specimens. Additionally, we are limited by manufacturing - orders are not being completely filled and we are often not aware of just how much will be shipped to us. We have attempted to secure large lots for testing, and only receive capacity for 2-4k patient tests a week so far.
Reynolds Army Health Clinic	48	1,000	For 8APR20 - 7 samples sent out to reference laboratory; 33 results received from reference laboratory. 8 samples tested and resulted in house. Rate limiting resource for in-house testing in the BioFire Test kits. Currently have 80 on hand. We have 1,020 test kits on order as well as 1,000 VTM on order. Max capacity testing in-house is 48 tests per day. We have no limit on send out tests apart from out supply of VTM.
Saint Francis Health System	279	4,990	Availability of Reagents and Collection supplies.
Viracor Eurofins	2,000	0	Space for more instruments and more experienced CLSs
